

Technology Trends 2004

The CSIRO Macquarie ICT Innovation Centre Seminar Series

CSIRO and Macquarie University are pleased to announce their 2004 seminar series. The Technology Trends seminars provide insights into the emerging ICT and Internet technologies that will power the next wave of ICT-enabled products and services.

The seminars are presented by researchers who are leaders in their fields and able to communicate technology issues in a clear and relevant way. After each seminar there will be time for informal networking and discussion.

Venue:

Macquarie University in either Building E6A, Room 102 or Building E6B, Room 136.

Schedule:

5.30 pm - Talk, 40 min; Questions, 20 min

6.30 pm - Refreshments and networking

7:00 pm - Door prize draw

7:30 pm - Close

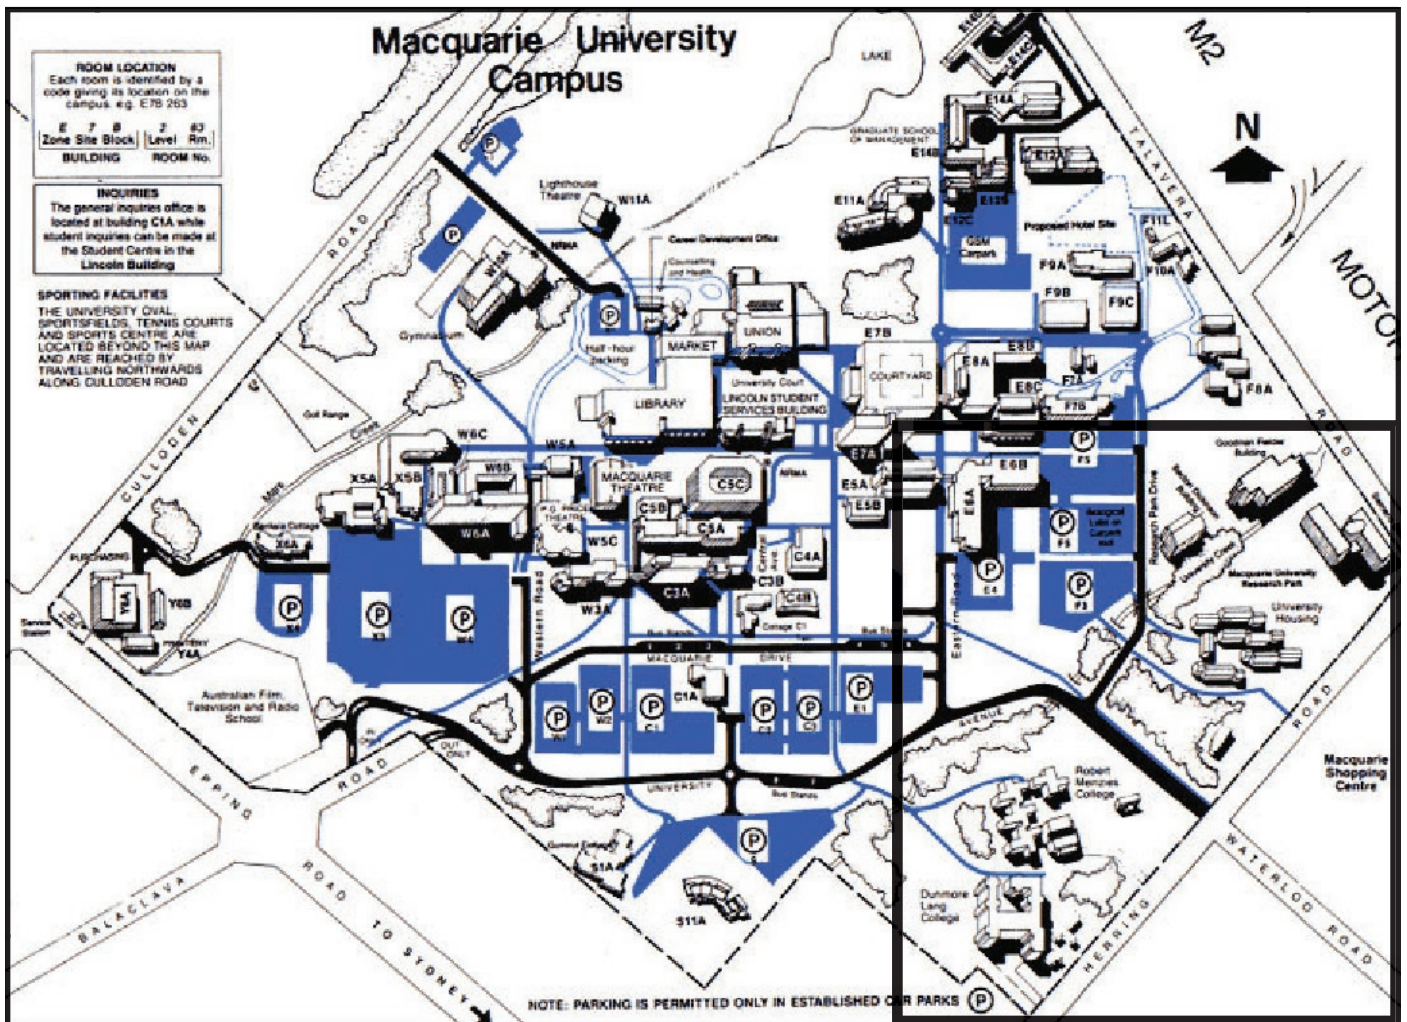

Free entry. Please note that pay and display parking operates at Macquarie University at all times. See the map on the reverse side for venue and parking information.
